## Material & Fabric Composition

Crafted from a premium blend designed for both comfort and durability, this sweater features a primary composition of 52% Viscose, 28% Polyester, and 20% Nylon. The sophisticated golden metallic stripes are achieved through the integration of 100% Lurex yarn, intricately woven into the main knit. The fabric boasts a medium-weight gauge with a substantial feel at approximately 320 GSM (Grams Per Square Meter), offering warmth without bulk. The texture is soft and smooth against the skin, with the Lurex adding a subtle, non-scratchy metallic shimmer that catches the light beautifully.
