Perfect for evening events, cocktail parties, or upscale seasonal celebrations, this dress will make you the center of attention. Its dazzling turquoise hue and subtle glitter finish make it an ideal choice for spring and summer festivities or even a vibrant winter gala.

## Material & Fabric Composition

This exquisite maxi dress is crafted from a premium jacquard woven fabric, composed of 85% Polyester and 15% Metallic Fibers. The polyester base provides excellent drape, wrinkle resistance, and durability, while the metallic fibers are subtly integrated to create a luminous glitter effect that catches the light beautifully. With a substantial fabric weight of 220 GSM (Grams Per Square Meter), the dress offers a luxurious handfeel and elegant structure, ensuring it falls gracefully without being overly heavy. The jacquard weave creates a subtle, intricate pattern on the fabric surface, adding depth and a tactile dimension to its shimmering aesthetic.

## Care Instructions

To maintain the integrity and brilliance of your Azure Radiance Jacquard Maxi Dress, we recommend professional dry cleaning only. If dry cleaning is not an option, hand wash cold separately with a mild detergent. Do not bleach. Lay flat to dry away from direct sunlight to prevent color fading and preserve the glitter embellishment. Do not tumble dry. Iron on a low heat setting on the reverse side, using a pressing cloth if necessary, to avoid damaging the metallic fibers.

## Sustainability & Origin

We are committed to responsible sourcing, and the polyester used in this dress is certified by OEKO-TEX Standard 100, ensuring it is free from harmful substances and safe for human ecological requirements. While a fully circular production process for glitter fabrics remains a challenge, we continuously strive to minimize our environmental impact by working with certified suppliers and optimizing production efficiency. Our goal is to reduce the carbon footprint associated with each garment's lifecycle.
