Material & Fabric Composition

This charming garland is crafted from 100% durable, high-quality latex for the balloons, ensuring vibrant color and lasting inflation. The string is made from 100% natural cotton cord, offering a soft yet strong hold. Each latex balloon weighs approximately 200 GSM, providing a substantial feel without being overly heavy. The texture of the balloons is smooth and slightly pliable, while the cotton cord offers a natural, matte finish.

Care Instructions

To maintain the integrity and vibrant colors of the garland, we recommend spot cleaning only. Use a soft, damp cloth with mild soap to gently wipe any soiled areas on the balloons or cord. Allow to air dry completely. Do not machine wash, tumble dry, iron, or dry clean, as these methods can damage the latex and cotton materials. Store in a cool, dry place away from direct sunlight when not in use to prevent color fading.

This Colorful Balloon Garland is thoughtfully manufactured in China, a region known for its expertise in producing quality children's accessories. The product adheres to OEKO-TEX Standard 100, ensuring that every component, from the latex balloons to the cotton string, has been tested for harmful substances and is therefore harmless for human health. While a festive item, we encourage mindful disposal to reduce environmental impact.
