Material & Fabric Composition

These slim-fit trousers are constructed from a premium blend of 98% Cotton and 2% Elastane. This composition ensures a soft hand feel and breathable comfort, while the elastane provides essential stretch for unrestricted movement and shape retention. The fabric boasts a substantial yet comfortable weight of 280 GSM (Grams Per Square Meter), offering durability without being overly heavy, and features a smooth, refined twill texture that resists creasing.

Care Instructions

To maintain the integrity and longevity of your Urban Navigator Slim-Fit Trousers, machine wash cold (max 30 degC) with similar colors. Do not bleach. Tumble dry low or, for best results, line dry to prevent shrinkage and preserve the fabric's stretch. Iron at a medium temperature if needed, avoiding direct contact with any embellishments. Dry cleaning is also an option for professional care.

Sustainability & Origin

Manufactured in Turkey, these trousers reflect a commitment to responsible production practices. The fabric used is OEKO-TEX Standard 100 certified, ensuring that every component, from the fabric itself to the thread and accessories, has been tested for harmful substances and is therefore harmless for human ecological use. We are continuously working to reduce the carbon footprint across our supply chain through efficient manufacturing processes and optimized logistics.
