Material & Fabric Composition

This Siad Midi Skirt is crafted from 100% Viscose, a natural cellulosic fibre renowned for its luxurious feel and excellent breathability. The fabric boasts a fluid, soft hand-feel with a subtle matte finish, ensuring a comfortable wear against the skin. With a fabric weight of approximately 140 GSM (Grams Per Square Meter), it provides a light and airy drape that moves beautifully with the body, without being sheer. The tightly woven plain weave construction offers both durability and a refined aesthetic.

Style Notes

The Siad Midi Skirt's graceful flow makes it incredibly versatile. For a chic daytime look, pair it with a fitted knit top or a crisp white linen shirt, finished with espadrille sandals or clean white trainers. Transition into evening by swapping to a silk camisole and heeled mules, adding a statement necklace. During cooler months, layer it with a fine-gauge turtleneck and ankle boots, topped with an oversized blazer or a tailored wool coat. This skirt is particularly suited for spring and summer, given its light fabric, but can easily be styled for autumn with appropriate layering.
