## Material & Fabric Composition

Crafted from a durable blend of 98% cotton and 2% elastane, these jeans offer the authentic feel of classic denim with just the right amount of stretch for all-day comfort and mobility. The fabric boasts a substantial weight of 380 GSM (grams per square meter), ensuring longevity and a premium, structured drape. The denim has a slight slub texture, adding to its authentic vintage appeal, while the elastane content provides excellent shape retention, preventing bagging at the knees.

## Care Instructions

To maintain the integrity and appearance of your Maverick Edge Ripped Denim Jeans, we recommend washing them inside out with similar colors. Machine wash cold (max 30 degC) on a gentle cycle. Do not bleach. Tumble dry low or, for best results, hang dry in the shade to preserve the denim's color and prevent excessive shrinkage. Iron at a low temperature if needed, avoiding direct contact with distressed areas. Do not dry clean.
