

SummitFlex Pro: Men's Hydro-Repellent Outdoor Training Pants

Product Overview

Conquer any trail or training session with the SummitFlex Pro pants, engineered for the active man who demands performance and comfort in the great outdoors. These versatile sportswear trousers are perfect for hiking, trail running, or any high-intensity exercise, offering superior protection against the elements. Designed for year-round wear, they excel in transitional seasons, providing a crucial barrier against unexpected showers while maintaining breathability.

Material & Fabric Composition

Crafted from a durable and agile performance blend, the SummitFlex Pro pants feature 88% recycled polyester and 12% elastane. This composition ensures excellent four-way stretch for unrestricted movement and robust resilience against abrasions. The fabric boasts a substantial 220 GSM (Grams Per Square Meter), offering a reassuringly sturdy feel without compromising on flexibility. Treated with a PFC-free durable water repellent (DWR) finish, the fabric exhibits a smooth, technical handfeel, with a subtle textured weave that enhances its outdoor-ready aesthetic and provides additional tear resistance.

Size Guide

| Size | Waist (cm) | Inseam (cm) | Thigh (cm) |
|------|------------|-------------|------------|
| --- | ----- | ----- | ----- |
| M | 80-86 | 78 | 62 |
| L | 87-93 | 79 | 65 |
| XL | 94-100 | 80 | 68 |
| XXL | 101-107 | 81 | 71 |

Measurements are taken flat. Waist measurements represent a range for comfortable fit.

Care Instructions

To maintain the integrity and performance of your SummitFlex Pro pants, please follow these care instructions: Machine wash cold (30 degC) with like colors. Do not bleach. Tumble dry low or hang dry to preserve the hydro-repellent coating. Iron on low heat if needed, avoiding direct contact with any printed logos or embellishments. Do not dry clean, as harsh chemicals can compromise the fabric's technical properties. Re-apply a DWR treatment periodically for prolonged water resistance.

Sustainability & Origin

The SummitFlex Pro pants are proudly manufactured in Vietnam, a region renowned for its advanced textile production capabilities. We are committed to minimizing our environmental impact, and these pants are made with Global Recycled Standard (GRS) certified recycled polyester, ensuring responsible sourcing and traceability of recycled materials. Our DWR treatment is PFC-free, reducing the use of harmful per- and poly-fluorinated chemicals. We continuously strive to reduce the carbon footprint across our supply chain, from raw material to final product, by optimizing transport routes and partnering with eco-conscious factories.

Style Notes

Pair the SummitFlex Pro pants with a performance-wicking t-shirt and lightweight hiking boots for an unbeatable trail ensemble. For a more casual post-workout look, combine them with a breathable hoodie and minimalist sneakers. Their sleek, tapered fit also makes them suitable for travel or active commuting. Ideal for spring, autumn, and mild winter conditions, these pants are your go-to for versatile outdoor performance.
